PROFESSIONAL SUMMARY

Computer Science student with hands-on experience in MERN Stack development and a strong interest in building practical web applications. Skilled in React.js, Node.js, Express.js, and MongoDB, with experience developing full-stack projects from frontend to backend. Familiar with REST APIs, JWT authentication, responsive UI design, and database management. I enjoy learning new technologies, solving real-world problems through code, and writing clean, maintainable applications. Currently seeking a Full Stack or MERN Stack Developer Internship where I can contribute, learn, and grow as a software developer.

TECHNICAL SKILLS

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap, Redux Toolkit, Axios

Backend: Node.js, Express.js, REST APIs, JWT Authentication, MVC Architecture, CRUD Operations

Database: MongoDB, MongoDB Compass, Mongoose ODM

Tools & Platforms: Git, GitHub, VS Code, Postman, API Integration, Responsive Web Design

Core Concepts: Full Stack Development, State Management, Component Architecture, Deployment, Web Performance

PROJECTS

Build Cost AI — MERN Stack Web Application

[LINK](#)

Tech Stack: React.js, Node.js, Express.js, MongoDB, JavaScript, HTML5, CSS3, Axios, REST APIs

- Developed a full-stack web application to simplify construction cost estimation.
- Built REST APIs using Node.js and Express.js for managing projects and material data.
- Used MongoDB with Mongoose to store and retrieve application data efficiently.
- Designed a responsive React.js interface that works well on desktop, tablet, and mobile devices.
- Implemented cost calculation features based on user inputs to generate project estimates.

Vital AI — AI-Powered Symptom Analysis Interface

[LINK](#)

Tech Stack: React.js, JavaScript, Tailwind CSS, HTML5, CSS3, React Router, REST APIs

- Developed the frontend of an AI-powered symptom analysis application using React.js.
- Created reusable React components for a clean and maintainable codebase.
- Added client-side navigation using React Router.
- Integrated REST APIs to display dynamic data on the interface.

Mini Projects

- **Happy Cart** – E-commerce application with product listing and cart functionality.
- **Portfolio** – Personal portfolio showcasing projects and technical skills.
- **Logan AI** – AI virtual assistant interface.
- **AutoDev AI** – AI-powered developer productivity tool.

EDUCATION

B.Tech — Computer Science & Engineering

2023 – 2026

Universal Institute of Engineering and Technology (I.K.G. PTU), Punjab

Diploma — Computer Science & Engineering

2019 – 2021

Universal Institute of Engineering and Technology (I.K.G. PTU), Punjab

CERTIFICATIONS

Front-End Development Certification — Future Finders

- Completed structured, hands-on training covering responsive UI design, modern frontend development principles, HTML5, CSS3, JavaScript, and web technologies—applying skills directly to real-world project builds.
